Available Sizes In: **XS - 5XL**

**PRINT ON GARMENT
FOR DISPLAY PURPOSES ONLY.**

Switch up your
casual T-Shirt
with our
NEW TIE-DYED
garments.

Due to the unique treatment of these garments
it is typical to see colour and shade differences.

This is an intentional feature of this style and no
two garments are alike.

A full-body photograph of a woman standing against a plain, light grey background. She is wearing a bright yellow baseball cap and a matching yellow t-shirt. Her hair is pulled back, and she is looking slightly to her right. She is also wearing black leggings. The lighting is soft and even, highlighting the texture of the clothing.

SYMBOLS & TECHNOLOGY

The symbols below are used throughout this catalogue to indicate the recommended branding medium and special fabric features.

CAP COMPONENTS

Crown

The Crown is the part of the cap that sits on the top of the head. It is comprised of a number of triangular cut pieces known as panels that, when sewn together, create a round shape to fit the head. A cap crown can either be structured or unstructured.

Panel

The panels of a cap are the different pieces of material, sewn together, to make the cap. Number of panels can range between 5 & 6 panels depending on the style of cap/hat.

Brim, Visor Or Peak

The peak of a cap is also known as the visor or bill. The peak is the horizontal part of a cap and it protects the face from the sun. It's most often made out of PVC plastic, sewn in between the fabric (canvas, cotton, wool etc.) to keep its curve even after it's been washed.

Sweatband

Only found on some caps & hats, the sweatband runs along the inside of the cap or hat & insures that perspiration is absorbed.

Closure

They close the cap or hat in the back. Our fitted caps & hats are just sewn closed in the back but have stretchy material to fit comfortably on the head.

Our adjustable caps & hats have a variety of closures, please see section on cap closures for the different closing mechanisms available below.
